

CCJBH Needs Your Voice

The Council of Criminal Justice and Behavioral Health (CCJBH) is conducting community engagement activities in locations through-out the state to elicit information from individuals with Lived Experience in the intersection of the criminal justice and behavioral health systems.

The goal is to gather input related to personal experiences, current needs, and best practices of programs and policies that work in this intersection. CCJBH is seeking participation from diverse populations including consumers, family members, and professionals to provide their first-hand perspectives.

This community engagement event will provide the information necessary to develop a funding opportunity for organizations to apply that can help reduce the incarceration of individuals with behavioral health challenges.

Some Examples of Who Should Attend:

- Individuals with Lived Experience in the Intersection of Criminal Justice and Behavioral Health
- Family and Consumer Groups
